Summary

I am Suhaib S Z, a passionate and innovative tech entrepreneur with a strong background in software development and leadership. As the Founder and CEO of Protool, I lead a dedicated team of professionals in creating custom web and mobile applications, as well as innovative SaaS platforms. My journey is marked by a commitment to excellence, continuous learning, and the ability to turn ideas into impactful digital solutions. With a focus on creativity, strategic thinking, and technical precision, I am driven to push the boundaries of what technology can achieve.

Experience

Protool
Founder
Remote
April 2023 - Present

As the Founder and CEO of Protool, a web and app development company, I have successfully built and led a dynamic team of 7 professionals. We specialize in creating custom websites and mobile applications tailored to our clients' needs. Additionally, Protool develops its own SaaS platforms, offering innovative solutions that streamline business processes and enhance user experiences. Under my leadership, Protool has grown rapidly, delivering high-quality digital products that meet the evolving demands of our clients across various industries.

Sadalink
Founder & CEO
Remote
September 2023 - Present

As the Founder and CEO of Sadalink, I have developed and managed a comprehensive SaaS product that includes URL shortening, bio creation, and QR code generation services. Under my leadership, Sadalink has achieved significant milestones, including the generation of over 300,000 links with millions of clicks. The platform provides users with a robust suite of tools for managing and optimizing their online presence. My role involves overseeing product development, driving growth, and ensuring that our services meet the highest standards of performance and reliability.

Protool AI Suite
Founder
Remote
August 2024 - Present

As the Founder and CEO of Protool, I have launched and oversee the Protool AI Suite, a cutting-edge SaaS platform designed to provide a comprehensive suite of AI-powered tools. The Protool AI Suite integrates advanced functionalities including:

- **Text Generation:** Create high-quality, contextually relevant text content using state-of-the-art language models.
- **Image Generation:** Generate visually appealing images from textual descriptions with advanced AI techniques.
- **Video Generation:** Produce engaging videos through automated processes, enhancing multimedia content creation.
- **Chatbot Development:** Build intelligent chatbots that offer seamless interactions and support across various applications.

This platform caters to diverse needs, from content creation to customer interaction, helping businesses and individuals leverage AI to improve efficiency and creativity. Under my leadership, the Protool AI Suite continues to evolve, providing users with innovative solutions that push the boundaries of AI technology.
